Opterus Named Amongst Retail CIO Outlook's Top 10 Retail Management Systems Solution Providers 2016

FREMONT, CA— Opterus announced today that it has been placed in the list of "Top 10 Retail Management Systems Solution Providers 2016" by Retail CIO Outlook.

Opterus has successfully reached its goal of becoming a leading technology provider to the global retail market offering real value to our customers. Its Store Ops-Center resolves significant operational pain points for a wide variety of retail segments. It provides a simple and elegant all-in-one web based solution for all of the communication needs. It's easy to implement and has been designed specifically for retail to simplify store communications.

"It's a great honor to announce Opterus as one of the Top 10 Retail Management Systems Solution Providers 2016," said Katie William, Managing Editor of Retail CIO Outlook. "Opterus has lived up to its mission to provide an efficient, cost effective store information and execution management tool that increases productivity and improves retail enterprise communication."

About Opterus
